A	ore you (Seller) aware of any item, equipment, or system in or on the Property that is in need of repair? (Y Yes (if you are aware)). If yes, explain. (attach additional sheets if necessary). The well helds a new course of the service of the serv				
-	It is not cooling properly.				
1	Are you (Seller) aware of any of the following conditions?* Write Yes (Y) if you are aware, write No (N) if you are not aware.				
	No Present flood insurance coverage				
1	Previous flooding due to a failure or breach of a reservoir or a controlled or emergency release of water from a reservoir				
	Previous water penetration into a structure on the property due to a natural flood event				
,	Write Yes (Y) if you are aware, and check wholly or partly as applicable, write No (N) if you are not aware.				
	Located Wholly partly in a 100-year floodplain (Special Flood Hazard Area-Zone A, V, A99, AE, AO, AH, VE, or AR)				
	Located Wholly partly in a 500-year floodplain (Moderate Flood Hazard Area-Zone X (shaded))				
	Located Wholly partly in a floodway				
	Located wholly partly in a flood pool				
	Located wholly partly in a reservoir				
	If the answer to any of the above is yes, explain (attach additional sheets if necessary):				
	"100-year floodplain" means any area of land that: (A) is identified on the flood insurance rate map as a special flood hazard area, which is designated as Zone A, V, A99, AE, AO, AH, VE, or AR on the map; (B) has a one percent annual chance of flooding, which is considered to be a high risk of flooding; and				
	(A) is identified on the flood insurance rate map as a special flood hazard area, which is designated as Zone A, V, A99, AE, AO, AH, VE, or AR on the map; (B) has a one percent annual chance of flooding, which is considered to be a high risk of flooding; and (C) may include a regulatory floodway, flood pool, or reservoir. "500-year floodplain" means any area of land that: (A) is identified on the flood insurance rate map as a moderate flood hazard area, which is designated on the map as Zone X (shaded); and (B) has a two-tenths of one percent annual chance of flooding, which is considered to be a moderate risk of flooding. "Flood pool" means the area adjacent to a reservoir that lies above the normal maximum operating level of the reservoir and that is subject to controlled inundation under the management of the United States Army Corps of Engineers. "Flood insurance rate map" means the most recent flood hazard map published by the Federal Emergency Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. Section 4001 et seq.) "Floodway" means an area that is identified on the flood insurance rate map as a regulatory floodway, which includes the channel of a river or other watercourse and the adjacent land areas that must be reserved for the discharge of a base flood, also referred to as a 100-year flood, without cumulatively increasing the water surface elevation of more than a designated height. "Reservoir" means a water impoundment project operated by the United States Army Corps of Engineers that is
